PROFILE

Hi, I'm Osama, a fresh Computer Science graduate with a deep passion for learning and self-development.

Through my internships at DIT and Bilsan, I gained hands-on skills in React.js, ASP.NET, SQL Server, and more.

I'm also interested in AI, Computer Vision, and Game Development, and always eager to learn more.

I may still be a beginner in some technologies, but I'm committed to growing, building real-world experience, and contributing value.

I'm motivated, curious, and ready to take on new challenges with full commitment.

EXPERIENCE

Software Engineer MAR 2025 - PRESENT
Bilsan Business Solutions · **Internship**

- Working on Begenner full-stack web applications, leveraging Next.js, ASP.NET, and Microsoft SQL Server.
- Contributing to software design and infrastructure, ensuring scalability and performance.
- Implementing AI-driven solutions, particularly in Computer Vision and Data Processing.
- Designing UI/UX prototypes using Figma, enhancing user experience.
- Gaining experience in web engineering and the software industry by participating in real-world projects.
- Such as a government project, a website and app that helps complete official car transactions online, and even building and training a company-specific AI model.

Software Developer Jun 2024 - Nov 2024
Dimensions Information Technology · **Internship**

- University Official Training at Haseeb Sabbagh Center
- Developed web applications using JavaScript, React.js, and Bootstrap, improving performance and user experience.
- Built a personal portfolio showcasing projects and skills in full-stack development.
- Designed and implemented a fully functional frontend React project.
- Strengthened understanding of Object-Oriented Programming (OOP) principles.
- Explored Machine Learning (ML) and Computer Vision concepts and their real-world applications.
- Gained introductory experience in Game Development using C++, understanding core mechanics and graphics programming.
- Conducted testing and debugging to ensure application stability and efficiency.

EDUCATION

Bachelor of Computer Science (CS) Oct 2021 - Mar 2025
Arab American University
Grade: Very Good

First Responder Paramedic 2022
Palestinian Red Crescent
